original deeds give acreages which cross over lot lines. Auditor's acreage does not match deeds											
Roman Wengerd owned 3 tracts of land which crossed over Military Lot Lines without stating the acreage in each lot.											
Parcel II tract 1 = 85.90						Lots 17 + 22					
Parcel II tract 5 = 12.63						Lots 17 + 22					
Parcel II tract 2 = 75.41						Lots 17, 22, + 27					
Auditor carried 1 card for each lot :						$\left\{ \begin{array}{l} 33.63 \text{ Lot } 27 \\ 66.00 \text{ Lot } 17 \\ 76.00 \text{ Lot } 22 \end{array} \right.$					
Therefore the Split stamps on 257-417 do not match the card acreage but do match the deed acreage.
