The above 3 tracts are considered part of the Subdivision as platted originally. They are all roads on the original subdivision.

These roads should be considered part of the Subdivision Number 2 which is excepted on the deed to O'Dell's Lake Youth Camp, Inc. (Vol. 140, Page 518). The original exception stated only 3.17 ac. however surveys of the roads show the 3.17 ac only included the acreage in the platted lots and additional acreage should be excepted to include the roads. Hence the reason for this card.

It appears that O'Dell's Lake Youth Camp, Inc. has been occupying the road area and has been under the impression they own the roads for some time now.
