

Survey made for Byron Middaugh to establish center of Section 12. "E" and the Quarter corner on the west line "a" and the line "a" to "E". The corner "a" was established by running from corner "d" to corner "c" on pro-rated measurements where we found a stone with marks and set a new and larger stone, and the corner "E" was set by running from corner "b" to corner "c" on pro-rated measurements as taken from Survey of 1855. The line "E" to "a" was then run through straight from E to a and post set at "f".

Chairman John Zoller  
 W. L. Ridebaugh,  
 Presnt. Byron Middaugh,  
 Jan. 21, 1916.

W. L. Ridebaugh  
 Supt. Co. Surveyor.
