Re: Money to Parsons Transfer/Variance Request, Knox Township, Holmes County, Ohio

Dear Jerry:

The Holmes County Planning Commission met on May 13, 1987 to review your request for a variance to allow the above transfer of a 1.69 acre parcel along SR 39 in Section 34, Knox Township with less than the required 50' frontage. Upon consideration of the facts of the proposal in view of the requirements of the Holmes County Subdivision Regulations, the members voted to grant the variance and allow for the transfer. This approval, as you realize, does not exempt you from any other rules or regulations you must meet to complete your project (e.g., water and sewage regulations, etc.).

You may now proceed with your project in accordance with the normal procedures. If I can be of further assistance in this matter, please advise.

Sincerely,

  
Thomas R. Morganti  
Planning Director
