

Note-- The bearings in deed Vol 132 Page 138 Ivan Mullet North 2° East does not match with deed Vol 134 Page 512 John Raber (North 4°45' East) SAME QUARTER LINE. I used John Rabers Bearing as this parcel will join his present land and may at some further time be transferred as one parcel.

There is an error in John Rabers present deed Vol 134 Page 512. Dimension on north south road shown in deed 110.0 feet measures 100.0'. The lines are all parallel. The 100.0 matches and measures out with Mullet deed of 226.9 feet place of beginning. Also Rabers deed should start right at his corner in place of going way around as called for to place of beginning.

A drawing of a survey made Jan. 11 1958 for the proprietor Roy Wengard (deed Vol 133 Page 375) to transfer 0.61 acres to John Raber.
