I certify that this drawing made from field notes of a survey made May 9th 1959 to transfer 0.087 acres of land to John Kandall. I find that in measuring from the quarter corner south that I get exactly the distance of ~~726.0~~ 726.0 feet or 44 perches as called for in deed. This would make a distance down from starting place in Kandalls present deed of 570.8 feet in place of 584.9 feet as called for in deed. This should be corrected if and when Kandall sells this property.
